

# Expandable M - 3 pods

## Mobile course and training room

---

With HMK Bilcon's **Expandable M - 3 pods**, you get a large, spacious trailer that is ideal as a course and training room. It can be used as a transportable room that can be driven to the course participants, instead of them having to spend time on transport to a school. The trailer can be set up anywhere you can park a truck, which gives great flexibility in terms of use. There are three expandable pods on the trailer with one large pod on each side and a smaller one on the right side. It is constructed with 63 mm fiberglass-reinforced polyester panels, which make up both the outer and inner cladding produced according to the "sandwich" principle to ensure great strength and good insulation.

### **Bright and inviting facilities**

When the trailer is set up, you get a large bright room with a total floor area of 69 m<sup>2</sup>. The trailer can be furnished with the same facilities that are available in an ordinary classroom, such as tables, chairs, projectors, interactive whiteboards, internet connection, etc. We plan the interior design in close collaboration with you according to your wishes and needs. Air-conditioning and underfloor heating are standard equipment in the trailer, and kitchen and toilet facilities can also be mounted.

## **BENIFITS**

**HIGH QUALITY**

**FAST SETUP**

**DELIVERY ON TIME**

**FLEXIBLE INTERIOR DESIGN**

**LONG LIFETIME**

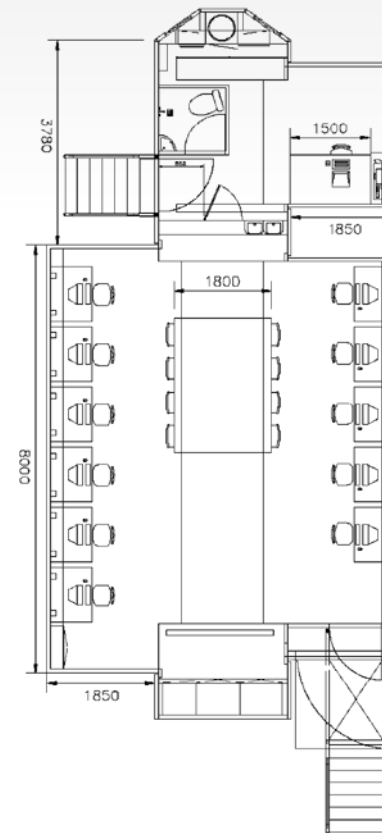

**UP TO 3 YEARS WARRANTY**
