

Expandable S

Portable trailer solution

The HMK Bilcon Expandable S trailer is a solid portable trailer, manufactured and tested according to our high quality standards.

We have designed the trailer with focus on functionality and ease of use. A trained person can make the mobile unit ready within 20 minutes. It is made up of 55 mm glass fiber reinforced polyester panels, which form outer and inner clothing made according to the "sandwich" principle, to achieve great strength and insulation.

Spacious and flexible

The trailer can be easily transported and set up anywhere. When set up, the pods are easily expanded with a remote control, giving a total of 55 m² floor space suitable for teaching, seminars, presentations and courses. The design of the trailer is made according to your wishes and may include airconditioning, floor heating, toilet facilities, computer network, A/V-system and much more.

You have the opportunity to lease the Expandable S trailer through us at an advantageous low interest rate with a fixed monthly fee as we work with Danish and Scandinavian leasing companies.

Benefits of HMK Bilcon's Expandable S solution:

- High quality
- Fast setup
- Delivery on time
- Flexible interior design
- Long lifespan
