

Megaspace S

Mobile exhibition trailer

With HMK Bilcon's **Megaspace S** trailer, you have the opportunity to design an exhibition trailer for exactly the purpose you need. It is very useful for e.g. exhibitions and fairs, teaching, seminars and courses. The trailer has an overhang of 11 m on each side, and there is therefore plenty of space, and the rooms are bright and inviting. It is constructed with 63 mm fiberglass-reinforced polyester panels, which make up both the outer and inner cladding produced according to the "sandwich" principle to ensure great strength and good insulation.

Easy and quick setup

We have placed particular emphasis on functionality and ease of use during development, which means that it only takes 20 minutes for a trained person to set up the trailer. When setting up, the sides slide out easily with a remote control, and this gives a total floor area of 74 m². The trailer is easy to transport with a tractor and can be set up anywhere a regular truck can go

BENIFITS

HIGH QUALITY

FAST SETUP

DELIVERY ON TIME

FLEXIBLE INTERIOR DESIGN

LONG LIFETIME

UP TO 3 YEARS WARRANTY

Megaspace S
