

Multispace M - 3 pods

Mobile training unit on wheels

The HMK Bilcon Multispace M trailer with 3 pods is a solid portable trailer, manufactured and tested according to our high quality standards. The trailer is perfect for training employees as it can be built with facilities similar to an ordinary classroom.

We have designed the trailer with focus on functionality and ease of use. A trained person can make the mobile unit ready within 20 minutes. It is made up of 55 mm glass fiber reinforced polyester panels, which form outer and inner clothing made according to the "sandwich" principle, to achieve great strength and insulation.

Bright and inviting facilities

The trailer can be easily transported and set up anywhere. When set up, the pods are easily expanded with a remote control, giving a total of 72 m² floor space. The interior design of the trailer is made according to your wishes and may include airconditioning, floor heating, kitchen and toilet facilities, data network and much more.

You have the opportunity to lease the Multispace M trailer at an advantageous low interest rate with a fixed monthly fee as we work with Danish and Scandinavian leasing companies.

Benefits of HMK Bilcon's Multispace M - 3 pods:

- High quality
- Fast setup
- Delivery on time
- Flexible interior design
- Long lifespan
