

OMSP Macola gas tank

Distributor of OMSP Macola in Scandinavia

HMK Bilcon is the distributor of liquid gas tanks from Italian OMSP Macola Industriale Srl in Denmark, Norway, Sweden, Finland, the Faroe Islands, Iceland and in Greenland. This gives you the opportunity to gather your purchases in one place and purchase a good quality liquid gas tank at a competitive price. As a distributor, we offer service on the vehicle, giving you a Scandinavian partner for maintenance.

Transport of many types of gas

The tanks are delivered in duplex, carbon or stainless steel depending on which type of product you need to transport. Some of the tanks are insulated with polyurethane, others are designed as a double tank with vacuum and multilayer insulation. The gas tanks are optimized for use in the Nordic countries and can be built on both 3- or 4-axle truck chassis or as semitrailers. You can choose from a wide range of different pumping and measuring systems, just as fittings are offered according to customer specifications.

OMSP Macola is a renowned Italian company established in 1970, which develops and produces complete technical solutions for transport of liquefied gases. All tanks are built according to current national law in each country.
