

Parcisa liquid tankers

Dealer of Parcisa tanks in Scandinavia

HMK Bilcon is the dealer of stainless steel tankers from Parcisa, S.L.U. in Denmark, Norway, Sweden, Finland, the Faroe Islands, Iceland, and Greenland. Therefore, you have the opportunity to have a tanker, drawbar trailer or semitrailer delivered in good stainless steel quality at a fair price. As a dealer, we take care of all service on the vehicle with a Danish service partner for maintenance.

Transport of many different products

The stainless steel tanks are optimized for use in the Nordic markets and can e.g. be used for the transport of chemicals, food, oils, alcohol, waste products and milk collection. The tanks can be built on both 3- or 4-axle chassis or as 3- or 4-axle semi-trailers and drawbar trailers. They are built in stainless acid-proof steel and can be delivered both with and without internal coating and with and without external insulation.

In addition, the Parcisa tanks are supplied in the known quality with known components, which provide a high level of operational reliability and they can also be supplied with various types of heating such as oil burner on the tank or waterborne from tractor.

All tanks are built in accordance with applicable national legislation.

Benefits of the Parcisa liquid tankers:

- Built according to your needs
- Industry-optimized solution
- Long life
- High quality
- Service and right of complaint at HMK Bilcon
